.....
As ratepayers you expect quality services from Marion Council to create pleasant surroundings for working and living. There have been great improvements in our parks, streets, sports fields and community facilities in the last four years. There are still new projects to plan and make happen. Contact me on my website to let me know your opinion or make me aware of what actions I must take.

As your Warriparinga representative, I want to assist you.

Raelene

Caring for our community. Acting for you.

These streets are being improved this year by Warriparinga Ward Capital Works 2017/2018

Sports Club and Neighbourhood Centre

It is planned to provide a home for the many Mitchell Park Sports Clubs with adequate change rooms, the bursting Neighbourhood Centre, the busy Dover Obedience Club and an indoor stadium to include basketball. Join the Mitchell Park and Sports and Community Centre Management Committee, plus talk to your friends neighbours and local politicians about the value of Mitchell Park Sports and Community upgrade.

Housing Diversity Plan

Design of the street where you live is important to you all. You find cars parked on both sides of a narrow street. The driveways to four homes on the block prevent the planting of enough street trees to create ambience. Some new houses remove privacy and block solar access. As the Chair of Urban Planning, I am resisting the State Government push for high density suburbs. The Housing Diversity Plan is with the State Government for decision.

Tennis Courts at Seaview High School

Seaview High School and Dover Square Club find their tennis courts unsafe. Marion Council and Seaview High School are designing courts (3 tennis, a multipurpose and a basketball), a clubroom and car-parking on the school grounds. Marion Council support these courts in its budget, but wants Education Department commitment.

Caring for our community. Acting for you.
